Old Marine Engine: how to find evinrude year for motor

Hi all need some help please... I have a 40 HP twin Evinrude, dark blue motor covers and i cant find a engine nameplate on it. The only numbers I can find are on a raised casting about 1 inch in size which are * 30475 ... and another number on a plug (looks like a welsh plug) on the top of the motor which is G3606376 any help would be good thanks, I was told it might be a late 70's unit

Maintaining Johnson E & FD Serie

Some history here, you have to go back to the 1953 Evinrude Fastwin 15 hp. That motor was improved somewhat to make it quieter in 1955, but still 15 hp. The 15 hp was added to the Johnson lineup in 1956. In 1957 the cylinder bore size was increased to 2-1/2 inches, increasing the displacement to 22 cubic inches and horsepower to 18hp for the FD-11.
