

Download Principles And Practice Of Lacrimal Surgery

Trichiasis and Distichiasis

Trichiasis refers to an acquired condition in which eyelashes emerging from their normal anterior origin are curved inward toward the cornea. Most cases are probably the result of subtle cicatricial entropion of the eyelid margin. Trichiasis can be idiopathic or secondary to chronic inflammatory conditions.

Surgery

Surgery is a medical specialty that uses operative manual and instrumental techniques on a patient to investigate or treat a pathological condition such as a disease or injury, to help improve bodily function or appearance or to repair unwanted ruptured areas.. The act of performing surgery may be called a "surgical procedure", "operation", or simply "surgery".

Surgery Network

The BC Cancer Surgery Network includes all providers of surgical oncology services from surgeons in remote areas to sub-specialists. The BC Cancer Surgery Network's vision is that all cancer surgery patients in BC experience the best possible outcomes.

International Journal of Radiation Oncology • ...

x In a survey of all female U.S. radiation oncology residents in 2017-2018 with 125 respondents (74% response rate), half agreed that gender-specific bias existed in their programs and a quarter reported experiencing sexual harassment. Half reported that lack of mentorship affected career ambitions, and 90% expressed interest in joining a professional group for women in radiation oncology.
